

TRANSILWRAP IS PROUD AND EXCITED TO INTRODUCE OUR NEW NAME ...

# Transcendia

A LEADER IN CUSTOM ENGINEERED MATERIALS

*Transcending to the future  
of custom engineered materials.*

**WE'VE GREATLY EXPANDED THE TECHNOLOGIES WE UTILIZE, THE CUSTOMERS WE SUPPORT, THE PRODUCTS WE OFFER AND THE GEOGRAPHIES WE SERVE.**

Our new name transcends who we were and embraces all we have become. Through both acquisitions and R&D—and continued plans for growth—we have expanded our unique capabilities, market focus and products, strengthened our global footprint and have more than 100 customer-focused Process Engineers, R&D and sales professionals.

Our material science and application knowledge experts offer the global marketplace extensive product options, unparalleled service and a world of innovation. Transcendia's proprietary technologies improve plastic film application adhesion, aesthetics, durability, performance and protection.

Through 16 facilities in North America and Europe, we provide the highest quality products, and the ability to customize formulations to meet nearly any film need.
