

TRANSMD® POUCH FILMS

COMPONENT FILMS FOR A WIDE RANGE OF STERILIZABLE MEDICAL DEVICE PACKAGING

TransMD pouch films offer converters and pouch manufacturers multiple component film options to meet specific processing conditions as well as barrier, seal strength and durability performance requirements.

FEATURES & BENEFITS

- Good puncture and abrasion resistance to maintain product integrity and safety
- High clarity for excellent product visibility
- High strength to withstand handling and distribution conditions

CUSTOMIZED

- Sealant layer blends to accommodate seal strength requirements and processing conditions
- Thicknesses for improved puncture-resistance and durability
- Widths to meet design and product packaging requirements
