

# PROCITE® POLYSTYRENE WINDOW ENVELOPE FILM

## SEAL IN SPEED, SECURITY AND EFFICIENCY

PROCITE films help the mail go through. They have a unique property balance to help prevent bending and buckling, and help reduce the risk of envelope rejection at the post office. As North America's premier manufacturer and converter of plastic film, Transcendia provides a broad portfolio of film types and thicknesses, custom converted to your specifications, along with unparalleled expertise, technical support, fast order fulfillment and low minimum order quantities. Inventory stocking programs are available from production facilities throughout the U.S. and Canada.

### BENEFITS & FEATURES

- Allows high-speed production of envelopes and processing of mail
- Gives outstanding combination of low-gloss and contact clarity
- Imparts security to envelope contents
- Allows high level of Optical Character Recognition and efficient bar code readability

### SAVE WITH PROCITE'S THIN GAUGE, AND STRETCH MORE OUT OF EVERY ROLL
