

MARSHALL SAFEGUARD™ INDUSTRIAL FILM

PROTECT WHAT MATTERS MOST WITH DURABLE FILMS SPECIFICALLY DESIGNED FOR YOUR APPLICATIONS.

MARSHALL SAFEGUARD™ Industrial Films are available in custom or standard sizes and thicknesses. End use applications include films for shrink wrapping boats and machinery, converting into pool covers, home moisture barrier, industrial pond liners and construction. No matter what the project calls for, MARSHALL SAFEGUARD™ products provide a single source solution.

CUSTOMIZE TO FIT YOUR APPLICATION

- Widths up to 25'
- Thicknesses from .001" to .030"
- Many colors available
- Additive packages are available to allow custom features to be built in such as Slip, Anti-Static, Grit, VCI, UVI
- Print one color-one side
- A wide range of resins available to allow designing for:
 - High strength
 - Extra stiffness
 - Hot tack seal strength

SHEET STYLES

Perforated Sheets

- Perforated with opening slit for the full length
- Centerfold perforated sheets

Continuous Sheets

- Non-perforated with an opening slit for the full length
- Center slit sheeting roll

APPLICATIONS:

- Pond Liners
- Boat Shrink Wraps
- RV Protective Wraps
- Pool Winterizing Covers

- Home Crawl Space Liners
- Construction Film

Specification Table

Application	Thickness	Widths Depending on Gauge	Color
Pond Liners	Thickness to 30 mil	Widths Depending on Gauge	Black with UVI
Boat Shrink Wrap	.007 is Standard	21' Width Maximum	Blue or White
Protective Wrap	Gauge Options	25' Widths	Colors Plus UVI
Moisture Barrier	Gauge Options	Extra Strength	Colors Plus UVI
Construction Film	.001" to .010"	25' Maximum	Clear or Colored

CUSTOM OPTIONS

- Perforated sheets on a roll
- Length of continuous sheeting rolls
- Center slit rolls offer choice of slit opening wound to inside or outside, except when the option of folded rolls is selected
- Folding to reduce the roll width by half—the slit opening is folded to the outside of the roll
