

TRANSPET™ OVERWRAP & FILMS FOR LAMINATIONS

FIND THE FILM YOU NEED FOR A WIDE RANGE OF PACKAGING APPLICATIONS

As North America's premier manufacturer and converter of plastic film, Transcendia provides a broad portfolio of FDA-compliant film types and thicknesses, custom converted to your specifications. Transcendia offers expertise, technical support, quick-turn order fulfillment, low minimum order quantities and top AIB ratings. Inventory stocking programs are available from production facilities throughout the U.S. and Canada.

CHOOSE THE TRANSPET HEAT-SEALABLE POLYESTER (PET) OVERWRAP FILM THAT'S PERFECT FOR YOUR APPLICATION

BENEFITS & FEATURES

- Runs on VFFS and HFFS equipment
- Delivers high clarity
- Films seal through contamination
- Provides dual ovenable/microwavable versatility with clear films
- Maintains a strong seal before and after cooking
- Functions as an oxygen and moisture barrier
- Opt for cheese release and thicker sealant layer films for specific applications
- Select perforated films to allow for venting of steam to maintain crispness
- Use self-venting films that release steam during cooking
